

What's stopping us from getting paid?

We know how to build.

Getting paid takes resilience

You don't need a big team.

Or months. Or an ad budget.

Super Meme

DroidClaw

You don't need the next Instagram.

One problem. A few people.

Puzzle game

Resume formatter

Invoice reminders

CI dashboard

These already exist.

One job. A real price.

Maaa

Lucky Charm

Carrd

You don't have to invent it.

A better version is enough.

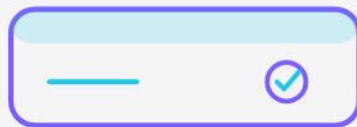

Start with the product.

A game, a charm, or a tiny app.

Then take payment.

One price. One checkout.

₹99-₹499

₹199/month

Then watch what they do.

One analytics tool is enough.

PostHog

Then give them a place to talk.

Discord is enough.

**They stay when you solve
the next problem.**

Likes are not customers.

**Your first paying customer
beats another feature.**

Too simple is why it stays in GitHub.

Five people × ₹199.

Your first ₹1,000.

₹199 extension

₹299 app

₹499/month

Level pack

Build anything. Ship something.

Solo or team.

Game

App

Site

Tool

**One sheet. Set Review
Ready.**

Thursday. Make it live.

Deployed

Usable

Payments work

Ship it. Get reviewed.

"We're going to see 10 person billion-dollar
companies pretty soon."
